Class Participation (individual): 20% of your grade I

- Class participation will be evaluated in all sessions.
- Everyone is expected to be prepared for each class and to be an active participant in class discussions.
- <u>You are required to attend each one of the classes</u>.
  - Your participation grade will reflect my assessment of your total contribution to the learning environment.
  - This includes not only the **frequency** of your contributions, but also their **quality.**

Class Participation (individual): 20% of your grade II

- **Quality** includes among other things:

  1. Sound, rigorous, insightful diagnosis (e.g. sharpening of key issues, depth, and relevance of the analysis);

  2. Ability to draw on course materials and your own experience productively;

  3. Professionalism of your conduct: attendance, punctuality, preparedness, and showing respect to all section members and your class contributions.

Class Participation (individual): 20% of your grade III

Assessing Individual Participation:

- At the end of each session, I will assess individual participation on a scale of 0 to 4, where:
  - 0: Not present for class session and therefore no participation in discussions or is physically present in class but mentally absent.
  - 1: Is present, keep some eye contact but has no verbal participation.
  - 2: Responds to specific questions with facts from case or repeatedly speaks in class based on opinions without backing up the point with evidence from the class materials or other research.
  - 3: Average level of active voluntary participation during the session that demonstrates quality preparation and comments.
  - 4: Represents a high level of active, voluntary, and quality participation in the class discussion; often the student who was leading the class discussion for that session.

Team Presentation (in groups): 20% of your grade

Working in your Teams for this semester.

Before Session 2 starts (next Monday, Sept. 14th):

- Sign up for the team in BBCampus / OB / Groups
- One member per Group post the 3 Documentaries of your choice: Option 1, 2 & 3 indicating your Team number.

First come first served basis

TEAM PRESENTATION 20%

- **Same rule for everyone: analyze it with OB concepts, not with strategy or marketing frameworks.**
- The final presentation is graded on a 10 points scale.
- No Bell Curve.
- Each presentation should be within 15 minutes
- Every team member must present a part to qualify for the grade.
- All members from the same team will receive the same grade. Therefore, it is your responsibility,
  - To ensure that your team works harmoniously,

Session 1: Introduction to Organizational Behavior

Chapter 1

What Is Organizational Behavior?

Learning Objectives

1.1 Demonstrate the importance of interpersonal skills in the workplace.

1.2 Define *organizational behavior (OB).*

1.3 Show the value to OB of systematic study.

1.4 Identify the major behavioral science disciplines that contribute to OB.

1.5 Demonstrate why few absolutes apply to OB.

1.6 Identify managers' challenges and opportunities in applying OB concepts.

1.7 Compare the three levels of analysis in this text's OB model.

1.8 Describe the key employability skills gained from studying OB applicable to other majors or future careers.

Describe the Manager's Functions, Roles, and Skills (1 of 4)

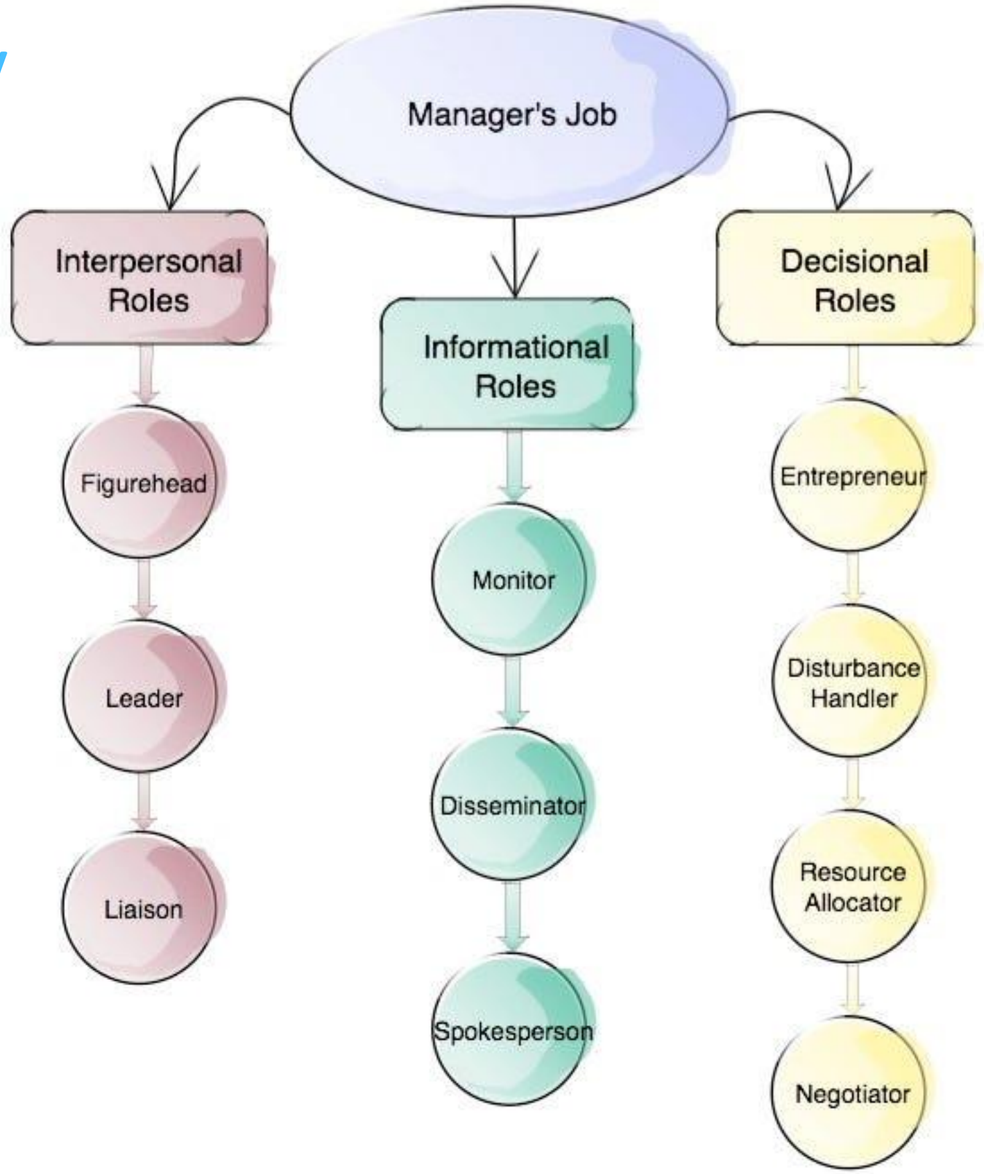

- **Manager**: Someone who gets things done through other people in organizations.
- **Organization**: A consciously coordinated social unit composed of two or more people that functions on a relatively continuous basis to achieve a common goal or set of goals.
  - Planning, organizing, leading, and controlling.

- **Mintzberg** concluded that managers perform ten different, highly interrelated roles or sets of behaviors attributable to their jobs.

Mintzberg Managerial Theory

- Mintzberg's managerial theory is founded on the idea that managers are involved in **ten roles**, divided into **three main clusters**:
  - Interpersonal,
  - Informational,
  - Decisional.

- Furthermore, Henry Mintzberg defines the operating effort of managers in each role.

Describe the Manager's Functions, Roles, and Skills (2 of 4)

Exhibit 1-1 Minztberg's Managerial Roles

Figurehead	Symbolic head; required to perform a number of routine duties of a legal or social nature
Leader	Responsible for the motivation and direction of employees
Liaison	Maintains a network of outside contacts who provide favors and information
INFORMATIONAL	
Monitor	Receives a wide variety of information; serves as nerve center of internal and external information of the organization
Disseminator	Transmits information received from outsiders or from other employees to members of the organization

Describe the Manager's Functions, Roles, and Skills (3 of 4)

[Exhibit 1-1 Continued]

Describe the Manager's Functions, Roles, and Skills (4 of 4)

- **Management Skills**
  - **Technical Skills** – the ability to apply specialized knowledge or expertise. All jobs require some specialized expertise, and many people develop their technical skills on the job.
  - **Human Skills** – the ability to work with, understand, and motivate other people.
  - **Conceptual Skills** – the mental ability to analyze and diagnose complex situations.

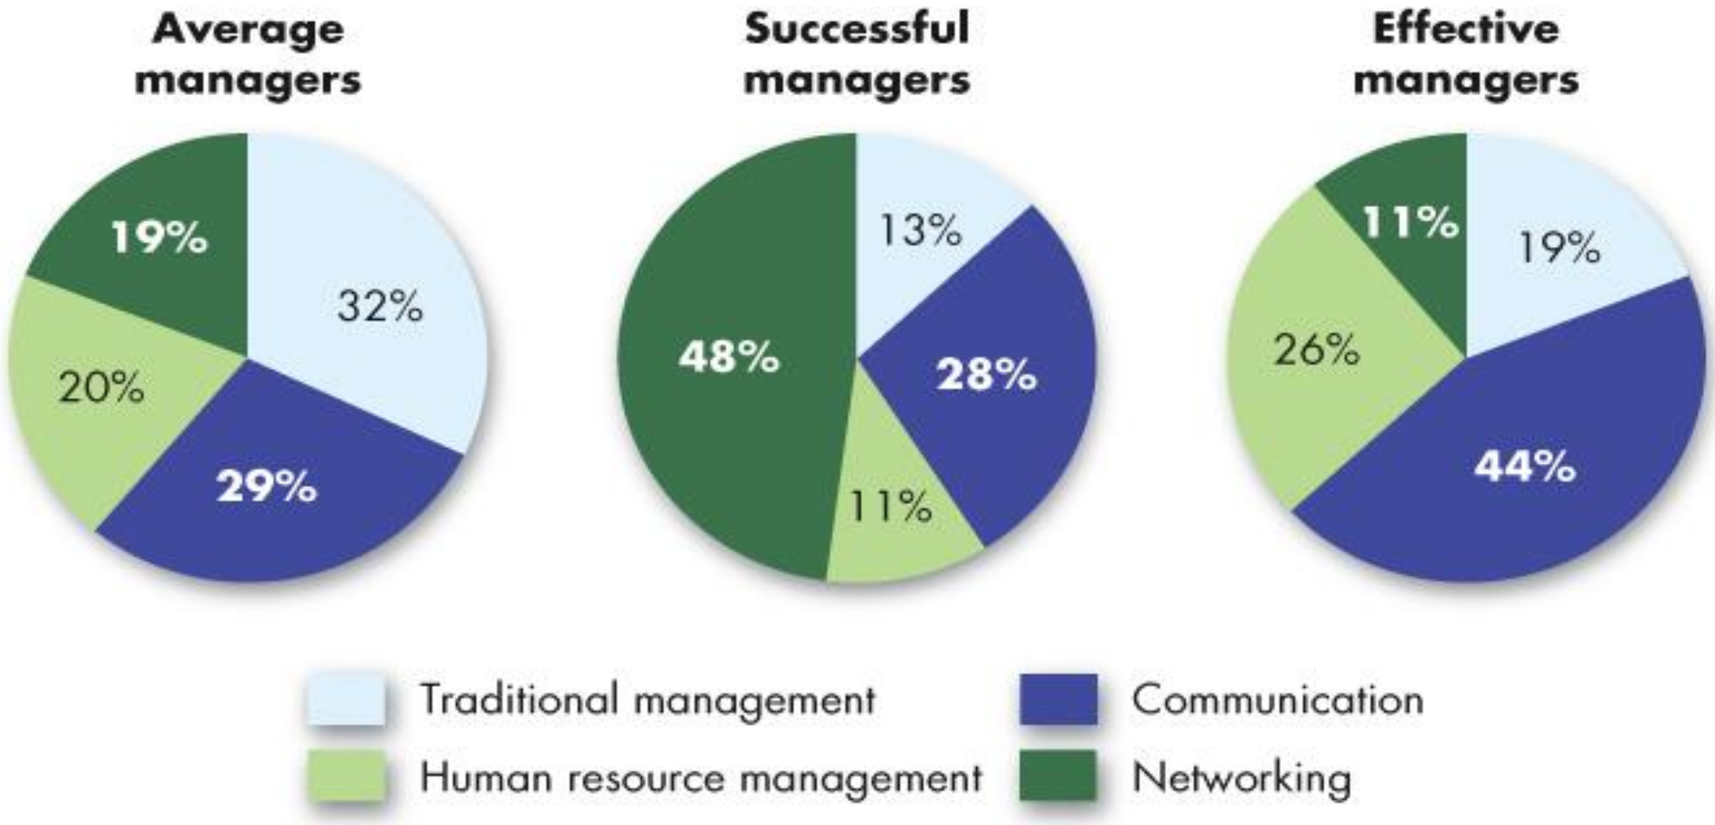

Effective Versus Successful Managerial Activities (1 of 2)

- Professor Fred Luthans (at the photo) and his associates found that all managers engage in four managerial activities:

1. Traditional Management:
   - decision making, planning, and controlling
2. Communication:
   - exchanging routine information and processing paperwork
3. Human Resource Management:
   - motivating, disciplining, managing conflict, staffing, and training
4. Networking:
   - socializing, politicking, and interacting with outsiders

Define Organizational Behavior

Organizational behavior (OB) is a field of study that investigates the impact that individuals, groups, and structure have on behavior within organizations for the purpose of applying such knowledge toward improving an organization's effectiveness.

Identify the Major Behavioral Science Disciplines That Contribute to OB (1 of 3)

THE BUILDING BLOCKS OF OB

- Organizational behavior is an applied behavioral science that is built upon contributions from a number of behavioral disciplines:
  - *Psychology*
  - *Social Psychology*
  - *Sociology*
  - *Anthropology*

Identify the Major Behavioral Science Disciplines That Contribute to OB (3 of 3)

- **Psychology**
  - seeks to measure, explain, and sometimes change the behavior of humans and other animals.
- **Social Psychology**
  - blends the concepts of psychology and sociology.
- **Sociology**
  - studies people in relation to their social environment or culture.
- **Anthropology**
  - is the study of societies to learn about human beings and their activities.
